

CRESTIALTM

Wasser Musik

SERIES **VITA**

The VITA shower program by CRESTIAL

echoes the design philosophy of CRESTIAL's renowned faucets series.

Perfectly complementing their appeal, performance and durability.

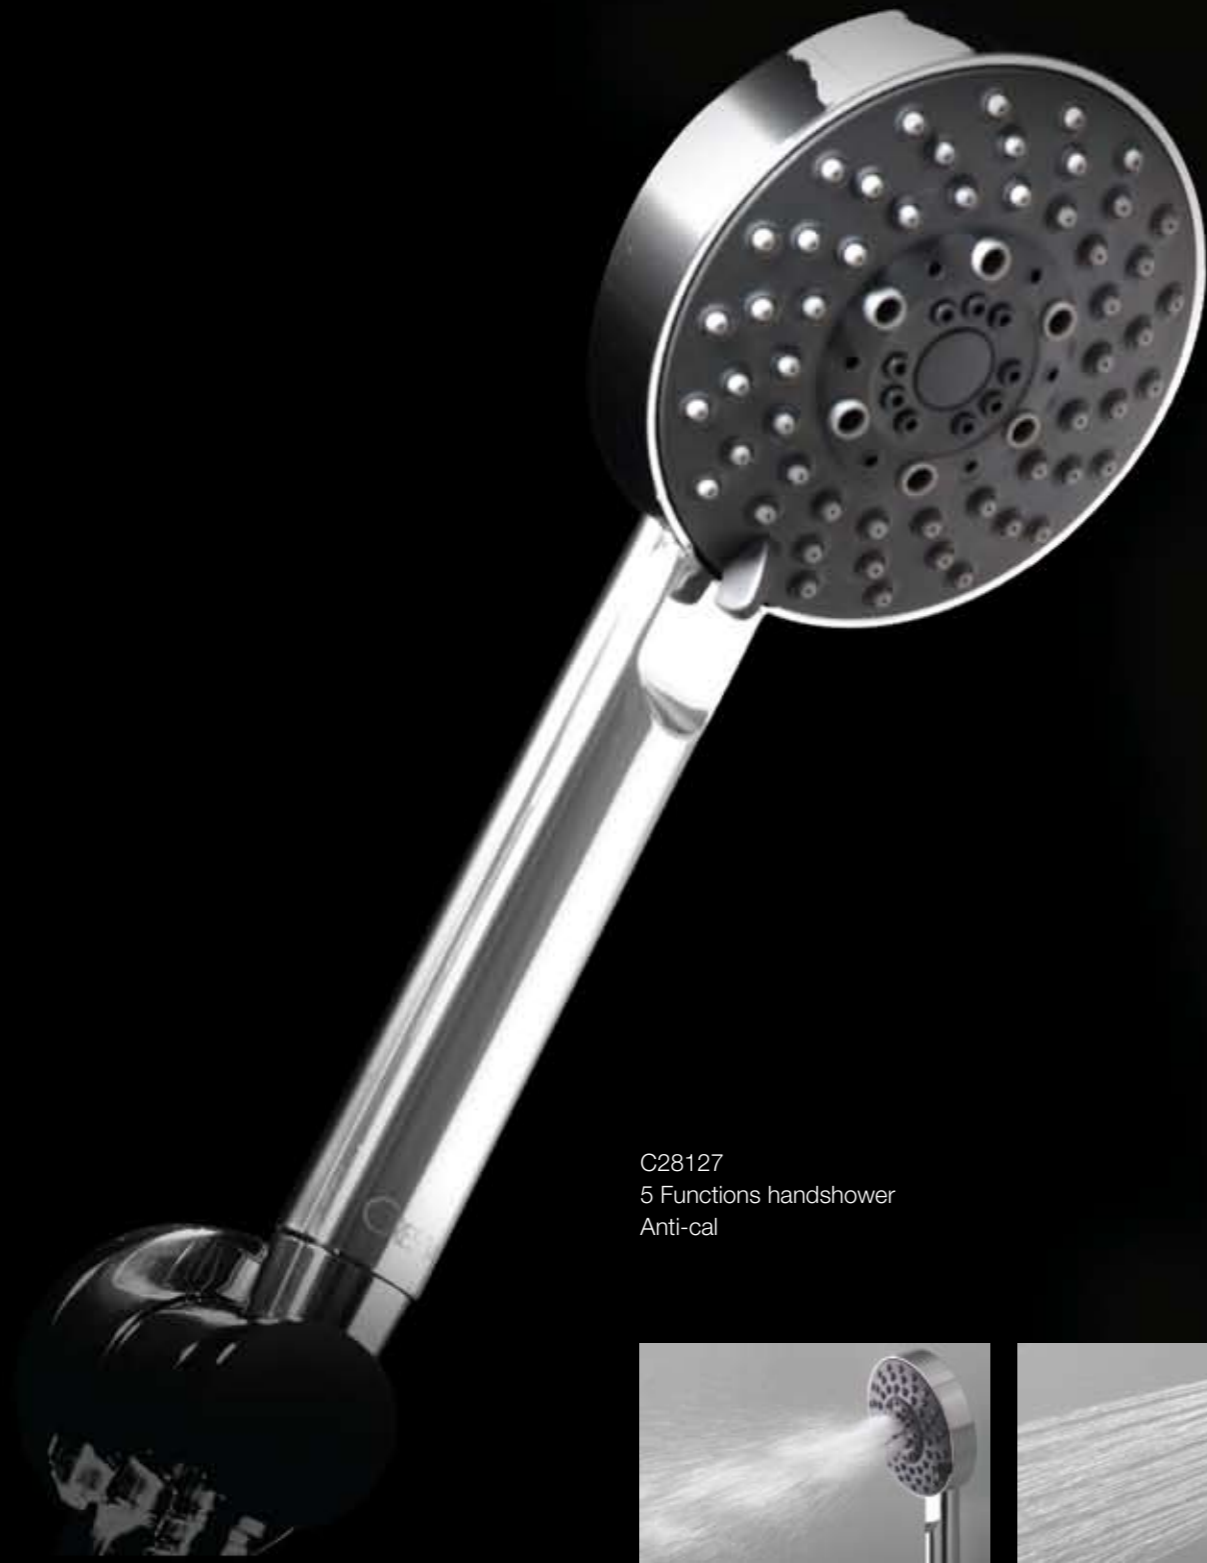

VITA showers will literally shower you with fun and enjoyment by virtue of their multitude of invigorating spray modes and user-friendly adjustments.

Models with pulsating massage spray, with rain spray, aerated spray and handshowers that pack all these spray modes into one. Sheer showering pleasure. Other models have yet more features such as a "misty spray" function. And all in countries where water is at a premium - can enjoy the "misty spray" in good conscience and at great length: in this spray mode VITA models are even more environmentally friendly owing to their thrifty water consumption. Still more on the topic of water conservation, most VITA showers can comply with Australia and Singapore Water Efficiency Labelling Standards (WELS). And a choice of Constant Flow Regulators (CFR) are available in 4, 6 and 9 liters/min. They can, of course, also be ordered separately.

Clearly, VITA is a series for the new millennium as all shower components are loaded with distinctions. Spray discs come with easy to care anti-cal features. Shower bars are available in lengths of 600mm to 900mm - equipped with mechanical or automatic lock sliding mechanisms that offer infinite adjustability in all directions. Even the ceiling mounted shower arm is designed to cleverly cope with different ceiling heights or individual preferences in positioning the shower.

CRESTIAL Wasser Musik even brings harmony to showering.
